

THE JIG SAW

BLACK PAPER

INTRODUCTION

A warm welcome to Hell **The Jigsaw**.

Hello.

You will be wondering by now, what the fuck is this? Well, over time *this* is something you will find out. You are now at the first task. During this task you will find riddles, clues, mystique and glamour, albeit less glamour and more pointless mind benders than anything else.

The Jigsaw Project is a glimpse into my brain. It wasn't fair for me to have sleepless nights by myself. So, came the idea to invite you disgusting Degens into this blackhole of a fray.

As seconds, minutes, hours, days & weeks pass, I hope you will enjoy this journey as much as myself and my team. We feel you are ready for what comes next but, are you?

USE CASE

What can we do?

THE PROBLEM

Rugs, shitcoins, seven thousand dogedegens, scammers, wen binance, NO FUN.

Our ethos is simple:

- Shake up the game
- Give genuine opportunity
- Make crypto enjoyable again

And one very important thing: You're gonna need a bigger boat.

OUR SOLUTION

How are we **actually different**?

You've probably realised by now we aren't just any play. We are here to create **experiences** & bring foreplay back to a crypto World which is currently on it's arse.

Our recruitment policy had one simple requirement – let loose your **imagination**.

We aren't here to promise you a 1000x return, we aren't here to deliver a false roadmap & we certainly aren't here to regurgitate a jpeg of a dog and give it a Japanese name.

We are here for one thing and one thing only. To **give back**.

MARKETING

Our plans are set in stone. There will be no deviation. There will be no second best. At launch we will be seen & talked about everywhere. We are trend-setters, we are get-goers, we are not sheep for the slaughter.

PARTNERSHIPS

Our partners are the driving force behind our project. We are visionaries but, these guys are the true grit, the frind, the cornerstone of success and when we say they are God tier, we really mean it.
